PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience in building high-performance web and mobile applications. Proficient in **JavaScript, Python, React, React Native, Express.js, Django, PostgreSQL**, and **real-time data handling with Socket.IO**. Extensive experience in **GraphQL API development**, improving app performance by **30%** and reducing development time by **20%** through optimized coding and collaboration. A skilled problem-solver focused on delivering quality projects on time.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python
- **Frameworks & Libraries:** React, React Native, Next.js, Express.js, Django, Firebase, Loopback.js
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools & Platforms:** VSCode, Git, Azure, GitLab, Chrome DevTools
- **Soft Skills:** Problem-solving, Time Management, Critical Thinking, Teamwork

EDUCATION

BS in Computer Science

Comsats University, Islamabad (Aug 2017 – Aug 2021)

WORK EXPERIENCE

Full Stack Developer

Doerz | Islamabad (April 2023 – Present)

- Built and maintained **full-stack applications** using **React, Express.js, Django**, and **GraphQL**.
- Developed a **security personnel tracking app** with **real-time location updates** and **geofencing**.
- Worked on **Top Shape Gym**, creating a **Coach Panel** for workout management and a **mobile app** to help users track workouts, log progress, and complete fitness goals.

- Collaborated with a **team of 3 developers**, ensuring on-time project delivery and optimizing efficiency by identifying and resolving bottlenecks early in the development process.

Frontend Developer

Codistan | Islamabad (July 2022 – Mar 2023)

- Developed **React.js** frontends with optimized UI performance and user experience.
- Integrated **REST & GraphQL APIs** for seamless backend communication.
- Built a **healthcare app** for doctor-patient interactions with digital check-up forms.
- Created an **admin panel** for a restaurant reservation system.
- Collaborated with **3 developers** to ensure timely delivery and efficient debugging.

PROJECTS

EDU Apply

- Developed a web-based **university application system** to streamline applications.
- Leveraged **GraphQL APIs**, improving data retrieval times by 35% and enhancing the user experience.

RezzList

- Built a **restaurant reservation system** with **React and MUI**, allowing admins to manage reservations.
- Created secure API endpoints for **reservation management** and ensured a responsive UI.

VistaTech

- Built a **mobile app** for security firms to manage **security personnel**, featuring **geofence-based clock-in/out**, shift management, and real-time updates.
- Integrated **push notifications** and **real-time location tracking** to keep security personnel informed on assignments and alerts.

TopShapeGym

- Developed a **full-stack fitness platform** with a **Coach Panel** for workout creation and a **mobile app** for users to enroll, track progress, and log workouts.
- Built **GraphQL APIs** for seamless data flow and real-time workout tracking.
- Enhanced user engagement with an intuitive UI and interactive features.

LANGUAGES

- **English** (Conversational)
- **Urdu** (Native)
